ABOUT THIS PLAN

The Winslow 3 bedroom, 2.5 bath floor plan is intelligently designed with an open living layout. As you enter the home from the covered front porch, you experience the substantial family room with optional fireplace, large open dining area and thoughtfully laid-out kitchen with plenty of cabinet space and sizable chef's island. The powder room and coat closet at the garage entrance finish off the first floor.

The owner's suite and two additional bedrooms are easily accessed from the spacious open hall at the top of the stairs. The owner's suite features a generous bathroom with dual-sink vanity, shower, and separate water closet as well as a spacious walk-in closet. The laundry room is conveniently located for easy access to bedrooms and guest bath.

Options include additional windows on the second floor as well as converting the rear patio/deck into a covered or screened porch and an extended patio/deck option for even more outdoor living space. There is also a storage room option with window off the front porch for even more storage space.
